## **PROFESSIONAL PROFILE**

Full-stack developer with experience delivering scalable, secure, and responsive applications using Node.js, React, and PostgreSQL. Strong in building real-time platforms, integrating AI features, and optimizing user interfaces. Known for adaptability, clean code, and effective collaboration in agile environments.

## **SKILLS & QUALIFICATIONS**

- JavaScript, Node.js, React, Next.js, Express.js
- PostgreSQL, MongoDB, MySQL | Tailwind CSS, Git, REST APIs
- Strong in problem-solving, debugging, teamwork, and fast learning
- Experienced in secure authentication, real-time systems, and data-driven UIs

## **EDUCATION**

### **Associate of Arts (A.A.) in Computer Science**

Lehigh Carbon Community College, Schnecksville, PA | Expected Graduation May 2027

## **PROJECTS**

### **TorhMart – Full-Stack E-Commerce Platform**

Mar 2025 - Apr 2025

*React, Node.js, Express, MongoDB, Stripe, Zustand, Tailwind, Framer Motion*

- Built a responsive e-commerce site with user/admin roles and secure JWT authentication
- Integrated Stripe for smooth payment processing and developed an admin dashboard
- Enabled real-time sales analytics, improving business insights
- Automated deployments with CI/CD on Vercel and Render, cutting manual effort

### **JobConnect – Job Portal & AI Mock Interview Platform**

April 2025 – May 2025

*React, Node.js, Express, PostgreSQL, VAPI AI, Gemini AI*

- Developed a platform for job listings and applications with recruiter and seeker roles
- Integrated AI mock interviews, increasing user engagement and preparation
- Built RESTful APIs and databases to support dynamic user workflows

## **EXPERIENCE**

### **Freelance Tech Support & Device Repair**

Monrovia, Liberia — 2020 to 2024

- Repaired phones and PCs, resolving software, network, and OS installation issues.
- Performed Android FRP bypass, factory resets, and system troubleshooting.
- Installed Windows OS and drivers, fixed app installation errors, and improved performance

## **CERTIFICATION**

### **NodeJS Full Stack Web Development BootCamp**

Orange Digital Center (ODC) Monrovia, Liberia – Completed Oct 2024
