SKILLS

Back-End Development:

Node.js | Express.js | PostgreSQL | MySQL | MongoDB

Front-End Development:

ReactJS | Next.js | JavaScript | TypeScript | Tailwind CSS | HTML | CSS

Tools & Technologies:

Git, GitHub, REST APIs, Leaflet.js, Chart.js, JWT Authentication, OAuth

Soft Skills:

Problem-solving | Teamwork | Debugging | Adaptability | Fast Learner

PROJECTS

Incident Reporting System (Node.js, MySQL, Leaflet.js, Chart.js)

Built a **real-time reporting system** for tracking incidents with geolocation and image uploads. Integrated **Leaflet.js** for interactive mapping of incident locations. Designed an **analytics dashboard** using **Chart.js** to visualize reports by type and area.

School Management SaaS (PERN, Stripe API)

- Building a cloud-based platform for schools to manage users and subscriptions.
- Implementing role-based access, authentication, and payment integration.
- Using PostgreSQL, Node.js, React.js and Stripe for subscriptions.

EDUCATION & CERTIFICATIONS

- Node.js Full Stack Developer Boot Camp Certificate
- Udemy Courses: JavaScript, React, Full Stack Development

COURSEWORK

Data Structures & Algorithms | API Development | Authentication & Security | Database Design | Cloud Computing

INTERESTS

Tech Startups | Open Source Contributions | Music & Amapiano | Building Scalable Apps
